

30.01.2023

Dear Valued Customer,

Crafar Crouch Skips and Bins would like to thank you for your ongoing support, and hope the year has begun well.

We'd like to remind our commercial skip customers of our requirements in order to give you the best possible service.

Bookings

Please call or email us a day or two before you need your skips emptied or removed so we have a bit of lead time to schedule this in. We do understand that there may be times when it's urgent and we will do our best to accommodate.

Empties

We would ideally like you to have at least one empty per month. However, we do realize there could be different factors regarding your building process that prevent this; for example, you might require two empties in one month and nothing the next which is fine as it averages out over a year.

Should you not be averaging this amount you may be charged a weekly fee of \$45.00.

Please take the time to place the rubbish in an orderly way as we cannot take the skip if it has overhanging materials.

Any metal should be placed on the top layer of the skip.

If you have cardboard skips with us, please break down the cardboard boxes before you place the cardboard in the skip.

Placement

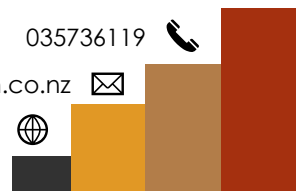

Please ensure our skip truck driver understands where you want the skip placed onsite. If for any reason it needs to be moved onsite, our preference would be to move it for you (allowing us lead time to accommodate this). If you do move the skip yourself, please take care not to damage it as damaged skips take time and money to repair and this cost could be on charged.

71 Broadway, Picton 

Tyres

We are not allowed tyres in our skip any longer. You can contact the following Company to dispose them.

Tyre Collection Service Ltd
20 Illinois Drive, Rolleston
021 288 8980
daryl@tyrecollection.co.nz

Price Increase

Unfortunately, there is a price increase coming up due to the extra cost of landfill dumping and the rising cost of Road User Charges.

Please find attached a list of charges effective from May 1st, 2023.

Thank you for your support and if you have any questions or queries, please do not hesitate to call, or email us.

Kind Regards
Anna Howroyd
Skips & Bins Division
